

Model TRM500 Fully automatic turntable wrapper

Machine features

Ear Flap profile®
2.400 mm max. wrapping height
1.200 x 1.000 mm max load dimensions
1.200 kg max. load weight
Soft start/stop by frequency inverter with return to start position
Automatic film cutting arm
Single phase 220V or Three-phase 380V
1.5 kW power
Variable output, depending on load features and operator ability
(About 20 pallets/hour)
Motorised film carriage
Electromagnetic brake with electronic setting by control panel
Independently adjustable top & bottom reinforcement wraps
Automatic load height detection by photocell
10 storable wrapping programs
PLC controlled
Ready for interconnections to other machines

Model TRM1500 Fully automatic turntable wrapper

Machine features

Ear Flap profile®
2.400 mm max. wrapping height
1.200 x 1.100 mm max load dimensions
2.000 kg max. load weight
Soft start/stop by frequency inverter with return to start position
Film carriage variable speed
3ALL System (clamping, cutting, dolly hot sealing)
Single phase 220V or Three-phase 380V
1.5 kW power
Variable output, depending on load features and operator ability (About 40 pallets/hour)
Motorised film carriage
Motorised pre-stretch
Independently adjustable top & bottom reinforcement wraps
Automatic load height detection by photocell
10 storable wrapping programs
PLC controlled
Digital screen with 10 storable configurations by the customer
Ready for interconnections to other machines and systems
Screen with graphics for helping the operator

Model P15 Semiautomatic case sealer

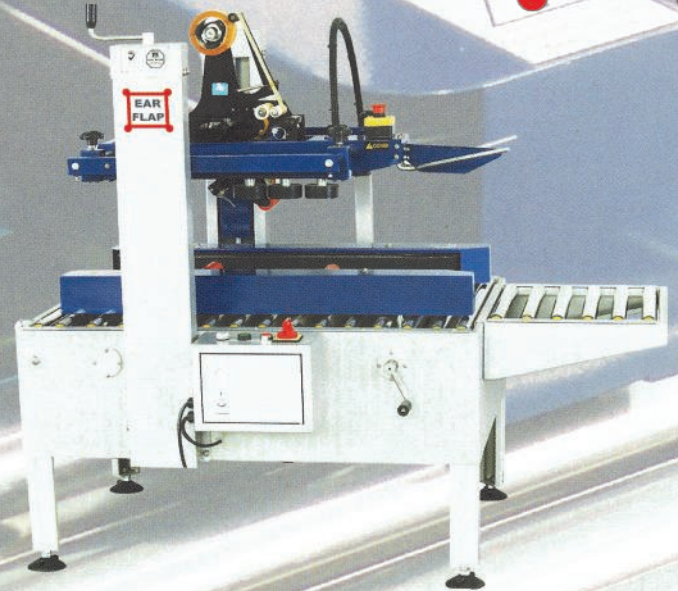

Machine features

Electric power: 220V 50Hz
Installed power: 0,45 Kw
Drive belts speed: 21 m/min.
Output: 30 cases/min.
Weight: 140 Kg.
Feet height: Adjustable from 510 mm to 800 mm
Tape tension: Adjustable
Tape width: 48 - 60 mm
Tape heads interchangeable
Coveyors rollers: Steel
Width and height adjustment: Manual by crank
Adjustable guides on top for keeping flaps straight while taping
Upper head-mounted machine stop for quick action

Acceptable box dimensions

Length: 150 - ∞ mm
Width: 120 - 480 mm
Height: 120 - 480 mm

Note: Stainless steel version available

The Impulse Motion

Modelo P35 Automatic case sealer

Machine features

Electric power: 220V 50Hz
Installed power: 0,45 Kw
Air pressure: 6 bar
Drive belts speed: 21 m/min.
Output: 12 cases/min.
Weight: 180 Kg.
Feet height: Adjustable from 510 mm to 800 mm
Tape tension: Adjustable
Tape width: 48 - 60 mm
Tape heads interchangeable
Coveyors rollers: Steel
Width and height adjustment: Manual by crank
Upper guides to keep flaps squared while sealing

Acceptable box dimensions

Length: 300 - 700 mm
Width: 120 - 480 mm
Height: 120 - 480 mm

Note: Hot Melt and/or Stainless steel version available
